GENEX UK | YOUR MANUFACTURING PARTNER

CAPABILITY PACK

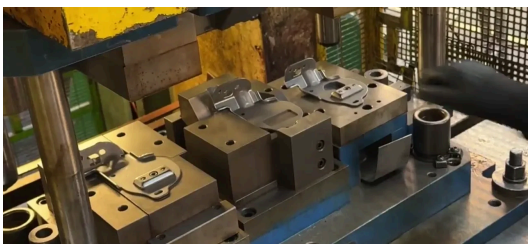

From a single pressing to the finished product.

Family-run in Walsall since 1980. Metal pressings, laser cutting and folding, welding, 5-axis machining and complete assemblies in mild steel, stainless steel and aluminium, from one-off prototypes to millions of parts.

200 t	6 mm × 3 m	25 mm	0 PPM	750k+
Mechanical presswork	Folding, Amada HRB1003	Laser cutting	Defect record	Parts made a year

What we do

PROCESS	CAPABILITY
Metal pressings	Progression (coil-fed), single action and multi-stage, on presses up to 200 t; material up to 5 mm; in-press piercing, forming and nut insertion
Laser cutting & folding	Laser cutting up to 25 mm; folding up to 6 mm at 3 m, programmed offline; hemmed safety edges
Welding & fabrication	Robotic MIG, manual MIG and TIG, spot and projection welding
CNC machining	Hurco 5-axis machining centre, turning and grinding
Inserting & assembly	PEM, stud and nut inserting; bought-in parts; assembled, tested and packed complete
Tube manipulation	Bent and welded tube frames and assemblies
Finishing	E-coat, plating, powder coat and more, managed through approved partners
Delivery	Our own 3.5 t and 7.5 t vehicles; custom racking and crates
Materials	Mild steel, stainless steel, aluminium, coated steels, copper and brass

Why customers choose Genex

- One supplier from blank to finished assembly
- 0 PPM defect record
- Traceable from enquiry to delivery, with customer-specific reports
- Investing every year: new Amada press brake, 5-axis CNC, hemming
- Our own delivery vehicles
- Family-run, independent since 2001

Sectors

Automotive · **Defence** · **Construction** · **Rail**

Aerospace & space · **Data centres & power**

Medical & catering · **Machinery & packaging**

Automation · **Agriculture & off-highway**

Electrical · **Consumer & aftermarket**

Architectural

Example work

- Automotive brackets and welded exhaust hangers
- Raised-floor base plates for data centres
- Stainless mortuary tables, built complete
- Powder-coated airport scanner-lane panels

How we work

01
Enquiry
Send a drawing or model, quantities and finish

02
Route & quote
The most cost-effective route, quoted in writing

03
First parts
Inspection report, or PPAP if you need it

04
Production
Pressed, cut, folded, welded or machined in Walsall

05
Finish & assemble
Coatings, inserts, assembly, one part number

06
Delivery
Packed to your spec, on our own vehicles
